Terms and conditions of entry to store

Thank you for choosing to shop at Habitat for Humanity ReStore, raising funds for housing need.

Your entry to the Restore is subject to you complying with these conditions.

2 metres apart

Customers must maintain 2 metre distance from each other, and from staff members. Parents and caregivers are responsible for ensuring minors also comply. Please keep your children by your side, and thank you for being patient.

If you are **unwell**, showing symptoms of being unwell, or have been in contact with a known Covid-19 case, please do not enter the ReStore. We have online shopping through Trade Me, or if there's something you're looking for, please phone the store directly to make arrangements.

Sanitisation

Please use hand sanitiser or wear gloves while shopping in our ReStore. Both are provided for your convenience.

Shop carefully

Please try to only touch what you wish to buy, where practical. ReStore's quarantine process ensures donated items are left untouched for at least four days before they are cleaned and available for sale. Refunds or exchanges are not possible.

Payment

Please follow the instructions of the staff while making a payment. Our counter is set up to maintain two metre distance, and our cashier will not handle the goods you wish to buy.

The use of **CCTV** with audio capability is in operation in this store for security purposes.

ReStore management may quietly ask you to leave if you are unable to stick to the terms and conditions. Thanks for your ongoing patience, we're so pleased to have you back at ReStore.
