

Do you own your own home and need help with essential repairs?

**Habitat for Humanity
may be able to help**

How our Home Repair Programme works

Our Home Repair Programme provides affordable critical maintenance and repairs for modest income homeowners. From minor repairs to major projects, this unique service is delivered to address the affordability challenges associated with keeping your home healthy, accessible, and safe.

Repairing damaged gutters or spouting.

Installing interior rails to improve safety.

Rewiring your home to improve safety.

Building exterior disabled access.

Renovating bathrooms to provide wheelchair access.

Fitting a new roof and weather proofing your home.

The process is simple

1 Contact Habitat for Humanity.

2 Complete an application form and undergo a financial assessment.

3 If your loan is successful, Habitat builders will assess your property needs.

4 You will make two initial repayments and then Habitat will undertake the necessary work.

5 Continue zero interest payments to Habitat for loan period.

All works large and small are considered, although cost is generally capped at \$20,000. Please do contact us to tell us your needs, as each application is considered on its own merits.

everyone

deserves a decent place to live

Habitat for Humanity New Zealand is part of an affiliated Habitat network, working in over 70 countries worldwide towards our vision of a world where everyone has a decent place to live.

In support of this vision, Habitat builds and manages affordable housing, delivers a wide range of housing adequacy services, and advocates on behalf of those in housing need. All our work is delivered in partnership, and focused on building strength, stability, and independence through the provision of decent shelter.

Please contact us if you think you or someone you know is living in sub-standard housing conditions and may benefit from our services.
