

## Tō Kāinga Whare

Tailored housing interventions for at-risk families based on in-home assessments.

Interventions provided include ventilation, insulation, mould removal, curtain installation, education and miscellaneous repairs.

## Social Return on Investment

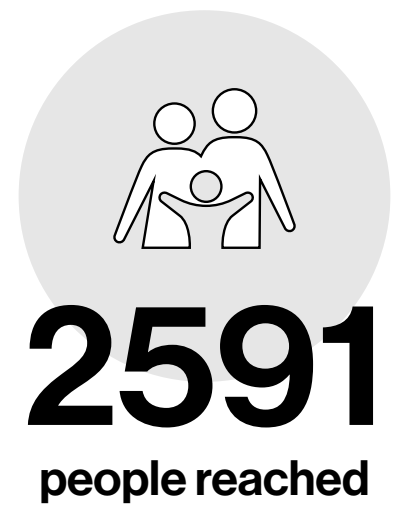

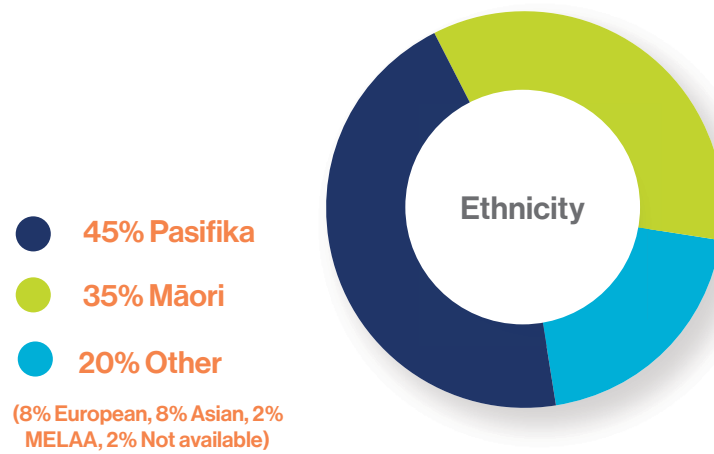

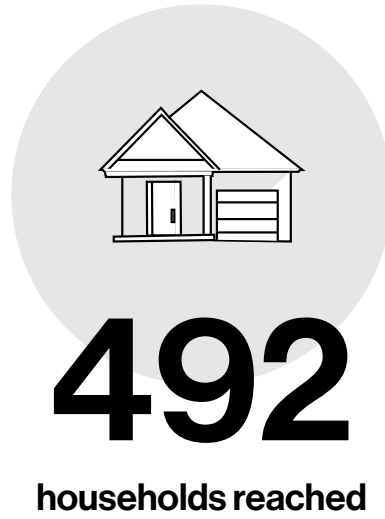

of programme investment

=

in value to society

Impact Lab undertook a GoodMeasure Report on behalf of Starship Foundation and Habitat for Humanity in October 2021 to determine the Social Return on Investment (SRI) of the Tō Kāinga Whare as it operated from 1 April 2019 to 30 June 2020.

## GoodMeasure Outcomes

### Improve Housing

measures costs savings associated with increased housing quality

### Improve Physical Health

intrinsic measurement of an improvement in physical health

### Increase Academic Achievement

measures increased income and government savings associated with different levels of academic attainment

### Reduce Asthma

measures income and hospital costs associated with asthma

Aligned to Treasury's Living Standards Framework this value back to society is broken down as:
